

Vanderbilt University Medical Center

Academic Breast and/or Gynecologic Pathologist

The Department of Pathology, Microbiology, and Immunology at Vanderbilt University Medical Center seeks a board certified academic surgical pathologist with subspecialty fellowship training in **Breast Pathology** or **Gynecologic Pathology** or both. General surgical pathology fellowship training is also desirable. Candidates need to be eligible for medical licensure in the state of Tennessee and, depending on qualifications and experience, could be eligible for appointment as an Assistant, Associate, or Full Professor on the Clinician Educator track. The Department focuses on its patients and its people and has a strong and diverse faculty with excellent training programs and a supportive atmosphere. These make it an excellent place to thrive as an academic, subspecialty surgical pathologist. The successful candidate is expected to be a high-performing, dynamic, and data-driven individual with strong communication skills and a commitment to excellent patient care as well as to colleagues and trainees in the department and institution.

Located in the heart of Nashville, Tennessee, Vanderbilt University Medical Center (1,019 beds) is one of the nation's leading research and teaching institutions with undergraduate medical programs contiguous on the same campus. VUMC is experiencing expansion in many areas with a top 20 cancer center, multifaceted organ and stem cell transplant programs, expanding educational programs, and myriad opportunities for clinical, translational, and basic science research. Nashville, the capital of Tennessee, is a growing and vibrant cosmopolitan area with a population exceeding 1 million, diverse entertainment, excellent schools, and ready access to outdoor activities.
